INFORMATION DISCLOSURE STATEMENT UNDER 37 CFR §1.56

Assistant Commissioner for Patents
Washington, D.C. 20231

S I R:

In accordance with the duty of disclosure imposed by 37 CFR §1.56 to inform the Patent and Trademark Office of all references coming to the attention of each individual associated with the filing or prosecution of the subject application, which are or may be material to the patentability of any claim of the application, Attorneys for Applicants hereby direct the Examiner's attention to the references listed on the attached revised form PTO 1449, a copy of references AA through BL can be found in the file history of application Serial No. 08/730,772, of which the parent application Serial No. 09/066,989, filed April 23, 1998, is a continuation-in-part application. A copy of references BM-BS can be found in the file history of parent application Serial No. 09/066,989, filed April 23, 1998.

Identification of the listed references is not to be construed an admission of Applicants or Attorneys for Applicants that such references are available as "prior art" against the subject application. Consequently, Applicants respectfully decline to use form PTO-

1449, since this form identifies all of the references cited therein as "Prior Art." As an alternative, Applicants submit herewith several pages of a "revised form PTO 1449" entitled "List of References Cited" instead of "List of Prior Art Cited."

Applicants respectfully request that the Examiner review the foregoing references and that the references be made of record in the file history of the application.

Respectfully submitted,

Date November 14, 2000
